PROFILE SUMMARY

Data & BI Analyst who turns messy multi-source data into automated, audit-ready reporting systems. Recently delivered a unified expense intelligence system for a US real estate investment firm: 5 supplier sources consolidated into one governed schema, 210+ hours, 5-star reviewed, retained on ongoing contract. Backed by 12 years of operational finance and retail experience across 50+ locations, including ERP implementation, system migrations, and data quality management.

SKILLS

Analytics & BI: Power BI (DAX, Power Query, Star Schema, Tabular Models), SQL Server, MySQL, BigQuery, Data Modeling

Automation: Python, ETL, Google Apps Script, n8n, LLM Integration (Claude, Gemini, OpenAI APIs)

Data Management: Data Migration, Data Quality, Microsoft Fabric (DP-600 in progress)

Domain: Operational Finance, Retail & Franchise Operations, ERP Systems, Multi-Location Reporting, Expense Reconciliation

EXPERIENCE

Data & BI Analyst — Freelance (Upwork, Rising Talent)

Jan 2026 – Present

- Built unified expense intelligence system for a New Jersey real estate investment firm: 5 supplier sources (Home Depot, Lowes, Amazon, Temu, Floor & Decor) consolidated into a 16-column schema with 13-department taxonomy, duplicate detection, and orphan refund resolution. 210+ hours, 5-star review, active retainer
- Automated supplier data extraction with LLM-driven prompts and browser automation, cutting manual entry to near zero; delivered a custom HTML dashboard the client uses for capital tracking across renovation projects
- Portfolio Project: built hands-free Power Query pipeline for a franchise bakery over a 1999 legacy POS: folder ingestion, automatic header/footer stripping, staging layer, no-touch dashboard refresh
- Portfolio Project: rebuilt a flat-table Power BI model into a star schema: 2 fact and 5 dimension tables, SQL views carrying business logic, deployed Tabular model with named DAX measures

Power BI Developer — W3Skillset

Sep 2025 – Dec 2025

- Built 5+ end-to-end Power BI portfolio projects using realistic business datasets across e-commerce, retail, and finance.
- Designed star schema data models, Power Query ETL workflows, DAX measures, and interactive dashboards.
- Developed financial reporting solutions including P&L, Balance Sheet, Cash Flow, and Budget vs. Actual dashboards.
- Applied SQL, data modeling, and visualization best practices to solve real-world business reporting scenarios.

Retail Reporting & Inventory Analyst — Sultan Cash and Carry (part-time)

Mar 2022 – Dec 2025

- Led opening inventory setup for 1,500+ SKUs valued at Rs.10M with zero discrepancies.
- weekly-to-annual sales, turnover, and margin reporting on POS data

Dawateislami Trust (NPO) — progressive data roles over 12 years

Feb 2013 – Aug 2025

Reporting → Data Migration → Data Quality → ERP Data & Reporting Analyst | Multan, Pakistan

- Coordinated ERP financial module implementation across 13 workplaces, migrating Rs.100M in balances to a fully reconciled go-live with zero discrepancies
- Managed data quality for a cloud donation platform across 50+ workplaces and 2,000+ field workers, validating 3–5M rows annually and lifting recovery rates 40% via daily monitoring reports
- Led digital accounting migration for 12 workplaces, reconciling 12 months of history across 200+ accounts; cut month-end close from 15 days to 3
- Automated weekly reporting with Google Apps Script and Forms, saving 3+ hours weekly; cut reporting errors 60% through standardized templates and validation

SELECTED PROJECTS

- Real Estate Expense Automation — paid client engagement, active retainer: 5-supplier consolidation, LLM extraction, custom HTML dashboard
- Franchise Bakery Reporting Pipeline — portfolio project production build: hands-free Power Query pipeline over legacy POS exports
- Star Schema Architecture Rebuild — portfolio build: SQL views, Tabular model, 2 fact / 5 dimension design
- E-Commerce Performance Analytics — demonstration, simulated data: RFM segmentation surfacing \$5M recovery opportunity, BCG matrix, funnel and cart abandonment analysis

EDUCATION & CERTIFICATIONS

Bachelor of Commerce (B.Com) — Bahauddin Zakariya University, Multan (2009 – 2011)

Microsoft Fabric Analytics Engineer (DP-600) — in progress, Exam scheduled: August 2026

Generative AI Essentials & Prompt Engineering Masterclass — Maven Analytics
